

The chess tournament

There was a boy who was six. His name was Jonney. He loved his chess class at school. His teacher told him about a chess tournament in 2 weeks. He wanted to join the chess tournament. He practised so much every day. Finally it was the day of the tournament. He was the youngest in the tournament. He was so nervous. In the first match he was going to play a boy 6 years older than him. The older boy laughed while pointing at Jonney. He is so little the older boy said. They started playing and Jonney quickly took the other boy's queen. Jonney won that game and came in first place in the tournament. He took home a huge trophy.
