

## The Ocean

The beautiful fish  
swimming under the sea  
finding sparkling treasures  
swimming and swimming  
but they never need air

Blue sea  
sometimes cold  
sometimes hot  
circling waves  
go up and down  
until finally...  
they dissolve  
in the cold and wet sand

Shimmering, colorful  
seashells,  
Their beautiful colors  
shine in the morning sun

The surfers spin and flip  
on the shivering waves  
The Hawaiian ocean flowers  
are beautiful and  
sometimes they get splashed  
by the sea blue water

The turtles  
swim and splash  
Some turtles get out  
of the water and lay their eggs  
in the sand

When the waves  
go toward the sun  
the sandpipers  
peck on the little fishies  
left behind with puddles  
of water
