

**Dream The Possible Dream**

If I could dream the possible dream  
Could I stop pollution in seas,  
Could I save all animals,  
Could I stop global warming, please!

If I could have the swiftest strokes,  
Could I bite the silver or gold,  
Could I be seen by the entire world,  
Could I stand there proud and bold,

If I could write the brightest songs,  
And play my way right through it,  
Could I perform my exquisite sound  
Because nothing could compare to it,

If I could write the most marvelous books  
That attracted almost all,  
Could I write about the time  
When I stood up tall and dreamed the possible dream  
That affected the world to all.
