

Dream The Possible Dream

If I could dream the possible dream
Could I stop pollution in seas,
Could I save all animals,
Could I stop global warming, please!

If I could have the swiftest strokes,
Could I bite the silver or gold,
Could I be seen by the entire world,
Could I stand there proud and bold,

If I could write the brightest songs,
And play my way right through it,
Could I perform my exquisite sound
Because nothing could compare to it,

If I could write the most marvelous books
That attracted almost all,
Could I write about the time
When I stood up tall and dreamed the possible dream
That affected the world to all.
